

Nail Tags

The iDTRONIC Nail Tags are passive RFID transponders which are very usefull for tree population monitoring or pallet tracking.

Through his small size of only 35mm and his Polyamid glass fibre material, the iDTRONIC Nail Tag is very rugged. Thanks to its ferrite core antenna it gives a very good reading distance. It is very easy to fit this transponder into wooden objects. This tag is available with NXP I-Code SLI, EM4100 and EM4550.

Product specification:

Dimension:	5,2 x 36mm
Material:	Polyamid with glass fibre
Antenna:	Wired with ferrite core
Standard Colour:	Black
Operating temp.:	-20°C to 70°C

Available 125kHz systems:

IC Type	Memory	Mode	Antenna	Order No.
EM 4100	64 bit	Read Only	Wire	NT-4100
EM 4550	1024 bit	R/W	Wire	NT-4550

Available 13,56MHz systems:

IC Type	ISO	Memory	Antenna	Order No.
NXP I-Code SLI	15693	1024 bit	Wire	NT-ICSLI

Other IC types are available on request!
