

PolyPro 4000D Removable

Removable labels

Direct thermal

Description

A white polypropylene direct thermal label stock which produces high contrast images with Zebra's thermal printers. Combined with a general purpose removable acrylic adhesive, this product offers good adhesion, combined with good removability from a variety of surfaces. Especially recommended in Zebra's range of mobile printers. (will also work in desktop, mid-range and high-performance printers). Recommended for short term use only.

Suggested Applications

- Indoor general purpose labelling
- Removable tear resistant shelf edge labelling
- Labelling of most packaging materials and plastic substrates
- Removable warehouse tote bin labels
- Not recommended for applications involving long term exposure to sunlight or extreme heat
